EARLY HISTORY

OF THE

VILLAGE (NOW CITY,) OF BUFFALO.

THE CITY OF BUFFALO is situated in the county of Erie, and state of New-York; is built upon the land adjoining Buffalo Creek and Lake Erie, at the junction of these waters, and contains 10,119 inhabitants. Most of the City is situated upon a bluff of table land that rises about fifty feet above the level of the Lake. The low lands that extend from the foot of this bluff, (or Terrace as it is generally called,) to the margin of the Creek and Lake, offering many inducements to particular business pursuits, have been overspread with buildings, and are becoming thickly populated.

The village was originally surveyed and laid out, by the Holland Land Company, to whom the site belonged in 1801; and the settlement may be said to have begun in the following year. Owing to the usual causes which retard new settlements in their advancement, the village made but inconsiderable progress in its growth, until the commencement of the war in 1812, when it became a military resort. In December, 1813, the place was entered by the British and Indians, and every building but two was burnt. The inhabitants were many of them carried captives to Montreal, while others preserved their liberty by a precipitate flight. The loss of property fell mostly upon individuals, and was not only severe, but,

in its consequences, truly calamitous—leaving in many instances, families destitute of house, clothing or provisions, with which to combat the severity of the season. From this period to the close of the war, nothing like a regular and permanent attempt was made to rebuild the town, although such of the inhabitants as could, returned and made temporary locations upon the sites of their former habitations. The news of peace was the signal for renewed exertions to rebuild the place, but pecuniary embarrassments, and remoteness from market, paralyzed all efforts so effectually as to keep back the place, and retain for it the character of a hamlet only, until the near approach of the Grand Canal, in its progress westward in 1822, gave brighter prospects to those on whom exertions devolved. In 1825, payment was received from the United States, under certain restrictions, for the buildings destroyed in 1813, but all remuneration for other property lost, was rigidly withheld. Exertions for public advancement now became more visibly efficient; and the attempt which had been several years making to render Buffalo Creek a commercial resort, were now first completely successful. The mouth of that stream had been obstructed by a sand bar which shut out most vessels that navigated the Lake, and forced them to resort to Black Rock, where a temporary shelter only could be afforded them, in the open river. To effect the desired object, a loan had been procured from the state, \$12,000, which, aided by private donations, had so far perfected a pier on the south side of the mouth of the Creek, as to exclude sand, and leave an open channel for vessels into the mouth of the harbor. The consequences of this were to create a new resort for vessels, and to arrest them in their passage to Black Rock. This necessarily caused the building of wharves, store houses, and such other conveniences as were required by the new business pursuits thus created.

PRINCIPAL EVENTS

Of the late War on the Niagara Frontier, arranged in chronological order.

1812, Oct. 12.—Battle of Queenston. Heights carried by the American troops under General Stephen Van Rensselaer, but the second detachmect, consisting of New-York Militia, refusing to cross to the support of their countrymen, the broken British troops rallied in the woods, in the rear of the Heights, and being reinforced by others from Fort George, they attacked and regained possession of the Heights, after a severe conflict, in which their commander, General Brock, was killed.

Nov. 21.—Cannonade between Forts George and Niagara, which continued through the whole day, with hot shot from both forts. The British threw more than two thousand hot shot, and one hundred and eighty shells into Fort Niagara, by which they killed two men only. The American shot sunk a schooner at the wharf upon the British shore, and set the town of Newark on fire repeatedly during the day.

Nov. 27.—Captain King, with a small detachment of troops, crossed the Niagara River in the night, spiked and rendered useless several pieces of cannon, at two small batteries below Fort Erie.

1813, MAY 27.—Fort George captured by a detachment of General Dearborn's force, assisted by several light vessels from the American fleet on Lake Ontario.

JULY 11.—Attack on Black Rock, in which the British destroyed the barracks, block house, &c. They were repulsed by a detachment of regular troops and drafted militia, and a party of volunteers from Buffalo and the surrounding country.

AUG. 24.—British under Sir George Prevost, attacked the American pickets at Fort George, but retreated after driving them in.

DEC. 13.—Newark burnt, and Fort George abandoned by the American forces, under General M'Clure.

DEC. 19.—Fort Niagara surprised by the British, who crossed at 5 mile Meadows and reached the Fort undiscovered. This was followed by the burning of the villages of Youngstown, Lewiston, Manchester, (Niagara Falls,) and the Indian village of Tuscarora, on that and the following day.

DEC. 30.—Buffalo burnt and entirely destroyed by the British, with the exception of two buildings, and the inhabitants forced to flee, many of them on foot, through the surrounding wilderness to distant settlements, amidst the frosts and snows of winter.

1814, JULY 3.—American army, under Gen. Brown, crossed the Niagara from Buffalo, and captured Fort Erie, commanded by Major Burke, and garrisoned by 170 British regulars.

JULY 5.—Battle of Chippewa. The British regulars defeated at the point of the bayonet by the American troops

JULY 25.—Battle of the Cataract. British defeated after a sanguinary contest, in which Major Gen. Brown and Brigadier Gen. Scott were wounded. Major Gen. Riall, of the British army was taken prisoner.

AUG. 7.—The enemy, 1500 strong, under the command of Lieut. Col. Tucker, were repulsed at Scajaquadie's creek, in an attempt upon Buffalo, by a detachment of 240 riflemen, under the command of Major Morgan.

AUG. 12.—Maj. Morgan, of the first Rifle Regiment, killed in an affair with the enemy's outposts, near Fort Erie.

AUG. 15.—The British repulsed in a night attack on Fort Erie, with the loss of about six hundred killed and prisoners.

SEPT. 17.—Sortie on the British lines from Fort Erie, which was completely successful. A few days after the

sortie, the British retired from before Fort Erie, and abandoned all the posts on the Niagara river, except Fort George. The American troops soon after destroyed Fort Erie, and retired into winter quarters.

GENERAL VIEW.

1813, APRIL 2.—The village of Buffalo was incorporated by the name and style of the Trustees of the village of Buffalo: *Eli Hart, Zenas W. Barker, Ebenezer Walden, Oliver Forward* and *Cyrenius Chapin* were constituted Trustees, for the first year—commencing on the first Monday in that year.

The election of Officers to be on the first Monday in May, in every year thereafter.

1815, APRIL.—The inhabitants of Buffalo not having been informed of the passing of the act of incorporation, until the time of the first Election had elapsed, the act of 1813 was revised, and new trustees thereby appointed.

1816, APRIL 5.—The act of 1813 again revised by statute, and new trustees appointed as before.

1822 APRIL 17.—A new act of incorporation passed, and all former acts repealed. The first Election to be held on the first Monday in June, 1822; all subsequent Elections to be on the first Monday in May.

1826, APRIL 11.—The act of incorporation *amended*. The boundaries of the village surveyed; trustees authorised to license inns or taverns, groceries, &c. The village declared to be a road district, and the trustees to be commissioners and overseers of roads and highways. Land office commissioners of the state authorised to convey to the trustees the land under the waters in Lake Erie occupied by the wharves and pier, then or thereafter to be erected on the north line of Buffalo Creek, the land formerly occupied by the old channel of the creek, or any lands created or reclaimed.

1832, APRIL 20.—The City of Buffalo incorporated. All former acts relative to the incorporation of the village of Buffalo, except the 6th section of the act 11th of April, 1826, repealed; the power, right and authority contained in that section in favor of the trustees of the village of Buffalo, transferred, as they then existed, to the Common Council of the city.

Since that time Buffalo has gone forward with unparalleled prosperity. Many great and permanent improvements in buildings, both public and private, have been made. Streets and canals have been opened, with a view to the future extension of the city.

The City of Buffalo is destined at no great distance of time to take rank with some of the older cities, in wealth, enterprise and population, having now about 40 Steamboats running to different ports, some of which are eight or nine hundred miles distant. Also, numerous other avenues, such as rail roads, canals, stages, ships, brigs, schooners, &c.

Corporation of the City of Buffalo, 1837.

NAMES AND PLACES OF ABODE OF THE MEMBERS OF THE COMMON COUNCIL, OF THE CITY OF BUFFALO, 1837.

BUFFALO TYPOGRAPHICAL SOCIETY.

This Society was organized in June, 1836, and is at present in a flourishing condition. Its objects are, the establishing an uniform scale of prices; the raising a benevolent fund to assist the distressed members, and the resisting any encroachments on the unalienable rights of the members of the profession. The officers of the Society consist of a President, Vice President, Secretary and Treasurer, together with a Standing Committee of three members, which form a Board of Directors, and are entrusted with the management of its affairs. Monthly meetings are held for debates and the transaction of business.

BUFFALO APPRENTICES' SOCIETY.

This Association was organized in the winter of 1834. The object of this Association is mutual improvement, and the general dissemination of knowledge. The Society at present is in a prosperous condition. Debates are held once a week, when interesting and popular subjects are discussed. There is connected with this institution a well stocked library, containing about 600 vols., Apprentices generally, will find this an entertaining and useful resort for their leisure hours, where they will have an opportunity of improving their minds, and greatly add to their morals.

OFFICERS.

C. E. Young, Pres't.,	H. S. Cutting, Sec'y.,

BUFFALO POST OFFICE—MAILS.

The Post Office is situated on the corner of Washington and Seneca streets, in the Old Baptist Church. O. H. DIBBLE, P. M.—H. CASE, Ass't. P. M. There are 66 mails per week received at, made up and despatched from the Post Office in this city.

The first mail received here, was in March, 1803, on horseback. It was conveyed from the east once in two weeks in this manner, until 1805. A weekly route was then established, and continued until 1809. In 1810, the mode of conveyance was changed, and a stage wagon was used. As the country advanced in improvements, the route was changed to twice and three times a week, and subsequently to a daily route, in post coaches.

The amount of postages on letters received for distribution at this Office, is at this time, \$40,000 per quarter. The amount of letters received for this city, and delivered here, is \$5,900; which, together with the amount charged on letters mailed here by our own merchants and other business men, &c., makes the amount of business annually, *over two hundred and nineteen thousand and one hundred dollars.*

☞ If an abatement of letter postage be claimed, the letter must be opened in the presence of the post master or one of his assistants, and if such letter should, instead of being overcharged, happen to be undercharged, the deficiency must be made up by the applicant.

The following rates of postage are charged, conformably to an act of Congress:

On Single Letters.

For any distance not exceeding 30 miles,	6 cts
over 30, and not over 80 miles,	10 "
over 80, and not over 150 miles,	12½ "
over 150, and not over 400 miles,	18¾ "
over 400 miles,	25 "

Double Letters, or those composed of two pieces of paper, double those rates, and so on in proportion.

Ship Letters not carried by mail, are chargeable with 6 cts.

Newspapers.—Each paper carried not over one hundred miles, 1 “
over 100, and out of the state, 1½ “

Periodicals, Magazines and Pamphlets are rated by the sheet. Carried not over 100 miles, per sheet, 1½ “
over 100 miles, 2½ “

Not Periodical, not over 100 miles, pr. sheet, 4 “
over 100 miles, 6 “

Newspapers to be forwarded by mail, should be enclosed in a cover, and left open at one end. If a letter or memorandum in writing, is contained in any newspaper, the person who deposits the same, forfeits five dollars, and the package becomes liable to letter postage.

Letters sent by mail, should be addressed to their places of destination in the clearest manner possible. A punctual attendance to this rule, may prevent *delays* and *miscarriage*.

TIME OF CLOSING THE DIFFERENT MAILS.

Great Eastern (Telegraph) Mail,	9 P. M.
Eastern side, (Pilot) via Williamsville and Clarence,	9 A. M.
Western, via. Fredonia, Erie, &c.,	8 P. M.
Northern, via. Black Rock, Lewiston, &c.,	7½ A. M.
Geneseo, or South Road, via. Lancaster and Darien,	9 P. M.
Lodi, via. Hamburg, daily,	9 do.
Olean, via. Springville, six times per week,	9 do.
Warsaw, via. East Hamburg, Willink, &c.,	
Monday, Wednesday & Friday,	9 do.

On Sundays, the office is open from 8 to 9 o'clock, A. M., and from half past 4 to 6 o'clock, P. M.

☞ In case the Telegraph arrives between 9 and 12 o'clock, A. M., it will be open to deliver letters and papers between the hours of public worship:—and when it arrives after 6 o'clock P. M. in time to assort before 8, it will be open to deliver the same.

STEAM BOATS ON LAKE ERIE.

Navigation by the aid of steam was commenced on Lake Erie about 18 years since. The first steam boat was built at Black Rock in 1818, and commenced running the same season. She bore the significant name of the *Walk-in-the-water*. The novelty of the sight, as she made her first trip through the Lake, excited a great degree of interest and curiosity among the people who lived upon the shores, especially among the native Indians, who were ignorant of the power and application of steam, and stood gazing with astonishment to see such "a thing of life" moving through the water without the aid of oars or sail.

The experiment was successful, and it was found that this lake could be navigated by steamboats in safety and to advantage. This boat, however, was lost in 1821 in a severe storm, being driven ashore a few miles above this city and wrecked. There were about three hundred passengers on board at the time, and all escaped in safety. The navigation of the lake at that period, was far more difficult and dangerous for any craft than at present, on account of the want of harbors, and the unimproved condition of those landing places where vessels were accustomed to stop, and which have since become good harbors.

The *Superior* was built immediately after the loss of the *Walk-in-the-water*, and commenced running the next season. The engine and some other parts which were saved from the wreck, were used in the new boat, which proved to be better adapted to the lake than her predecessor. In 1827 she underwent thorough repairs and received new boilers, and continued to perform her regular trips until 1834, when she was laid aside. Her engine, being the same that was in the *Walk-in-the-water*, and the first that was put in motion on the lake, was transferred during 1835, to a new and splendid boat, and continues to operate well after being in use 18 years.

From 1818, the time when steam navigation commenced, to 1824, there was only one steam boat upon Lake Erie. Two others were added in 1824, and in 1825 three more were built. In 1826, 1829, 1830, 1831 and 1832, there was built one each year, making the whole number of steam boats on the lake at the latter date, five years ago, only TEN.

The year 1833 seems to have commenced a new era in steam boat navigation upon this lake, or at least, this kind of business was greatly enlarged. During this year not less than *twelve* new boats were put in motion upon these waters, many of them were of the first class of boats, elegantly furnished and adapted to carry a large number of passengers. The number was thus more than doubled in one season, and a better class of boats introduced. In 1834, *seven* new boats were added to the list, and the same number in 1835; from that time to this *ten* more have been added. The steam boats now upon this lake will bear comparison with the same kind of craft upon any of the waters of the United States.

The present number of boats on the lake is forty-five; the aggregate tonnage of which is 10,500 tons. The capital now invested in this stock, exceeds \$1,000,000.

Three steamboats have been wrecked and lost, viz: the WALK-IN-THE-WATER, in 1821, near Buffalo; the WASHINGTON, in 1833, during her third trip, on Long Point; and the PIONEER in 1834, on Lake Michigan.

Three have been laid aside,—the SUPERIOR, the ENTERPRISE and the HENRY CLAY.

The Caroline was built in New-York and brought to this lake through the Erie canal by 'shipping' her guards. Several of the small boats do not perform regular trips through the lake, but are employed on the rivers and bays. The Victory and Caroline run from Buffalo to Niagara Falls. The Gratiot, Brady and Jackson, perform regular trips from Detroit to Maumee and Monroe, and to Fort Gratiot. The Jack Downing runs from Sandusky City to Lower Sandusky.

There are also four British boats on the lake, viz:—
Minuissetunk, Adelaide, Thames and Pentanguishene.

The usual fare from this city to different ports and
through the lake is as follows—

	<i>Cabin.</i>	<i>Steerage.</i>
From Buffalo to Erie	\$4,00	\$2,00
“ “ “ Cleveland,	6,00	2,50
“ “ “ Detroit,	8,00	3,00

The number and denomination of vessels belonging to
this port is as follows, viz:—18 Steam Boats, 2 Ships, 3
Brigs, and 67 Schooners and Sloops—amounting in all
to 90. The whole number of arrivals at our port during
the year 1836 was, of Steam Boats about 800

Clearances for the same time, about 800

Total,	1,600
--------	-------

The average tonnage of them was 285, which makes
an aggregate of 456,000 tons.

The number of arrivals of Ships, Brigs,	
Schooners and Sloops was	1,000
Clearances do do do	1,000

Total,	2,000
--------	-------

Average tonnage 85, amounting to	170,000 tons.
----------------------------------	---------------

Total of Steam Boats and vessels of all
classes, 626,000 tons.

This divided by 210 the number of days of navigation
is equal to 2,981 tons arriving and departing daily from
this port.

The increase of enrolled and licensed tonnage belong-
ing to this port from 1834 to 1835, was 1681 tons; from
1835 to 1836, was about 2,400 tons; from 1836 to 1837
not less than 3,000 tons. Which gives an increase for
three years of 7,081 tons.

From May 1, 1837, to May 1, 1838.

CRARY'S BUFFALO DIRECTORY,

FOR THE

62d Year of American Independence.

The words *street, store, office*, and the prepositions *of, at, with, &c.* are not expressed, but understood—the place of business is placed first.

ABBREVIATIONS.

h. stands for *house*—*c.* *corner*—*bd.* *board or boards*—*ab.* *above*—*bel.* *below*—*bet.* *between*—*e.* *east*—*w.* *west*—*n.* *north*—*s.* *south*—*op.* *opposite*—*lab.* *laborer*—*cab.* *cabinet*—*wid.* *widow, &c.* By a reference to the list of streets on the 33d page, the abbreviation of their names will be understood.

OBSERVATIONS.

Throughout this Directory, the christian names of those, where there are more than one of the same surname, are alphabetically arranged. The firms are always placed at the last of those of the same name; when females are known to be widows, they are so designated, and placed immediately preceding the firms in correct arrangement; and a scrupulously strict alphabetical arrangement (carefully conformable to the correct spelling of the name) is observed throughout the work.

In searching for a name, the *inquirer must know the proper spelling*—for instance, if *Baley* is sought, not look for *Bailey*, for *Schneider*, not look for *Snyder*—for *Schmidt*, not look for *Smith*—and *vice versa*.

NAMES AND RESIDENCE

OF THE

HEADS OF FAMILIES AND HOUSEHOLDERS,

In the city of Buffalo on the 1st of May, 1837.
